A former railway line providing elevated views across the moors and woodlands of the Goyt Valley.

Access For All Route:

① Pass to the left of the field gate from the car park opposite.

② Continue above the lake and along the track to a lone tree and the embankment.

The former Cromford and High Peak Railway linked the Cromford and the Peak Forest canals.

The reservoir provided water for the stationary steam engine, which hauled trains up the incline, and was also used as an ice rink in Victorian times.

The bubbling call of the curlew may be heard across the moors.

Distance: 1 km to the embankment
Start Point: Car Park at Goyt’s Lane, via the A5004 north-west of Buxton
OS Grid Ref: SK 0232 7515
Post Code: SK17 6GJ
Nearest Facilities: Buxton
