Dear Sir / Madam

Roaches Estate, Staffordshire

The Peak District National Park Authority is looking to work with partners (or possibly a purchaser) to help it to continue to protect and enhance the Roaches Estate for current and future generations. You have probably seen advertisements and press coverage relating to this, which resulted in 9 parties expressing a formal interest in the proposal.

The Authority has put together a set of draft objectives which it proposes to finalise as criteria for the selection of partners or purchasers after wide external consultation. I have attached the draft objectives and would be grateful if you would read through the document and let me have any comments by 14 January 2011. The objectives will then be incorporated into a package to be sent to the interested parties in February 2011.

It would also be helpful for me to know what key questions you would ask of the potential bidders if they are not already covered in the attached document. If you would like me to come and talk to you about the proposals or need any further information please let me know.

Yours sincerely

*Gill Bellenie*
