Conservation Area	-

**DESCRIPTION** We are concerned that the Lime tree in our front garden is becoming a potential hazard because of its size and closeness (4.5 metres) to our property. In height it is probably about 22 metres (almost 4 times the height of the guttering) and the circumference of the trunk is 2.6 metres at a height of 1.5 metres. We would like to reduce the crown of the tree by approximately one third. The main trunk appears to split into two branches at about this point. We would also like to lift and thin the crown of the tree.

**PARISH** Hartington Town Quarter
