DESCRIPTION	To fell 5 no Cypress trees in rear garden of Westfield Cottage. The trees are causing serious shading issues to Westfield Cottage & other neighbouring properties. Also, causing serious issues with blocked gutters & drainpipes in the immediate adjacent properties, namely: The Smithy, The Workshops & The Blacksmiths. All owners have requested trees to be felled. The 5 no Cypress trees will be felled by a qualified arborist - Ecotrees of Sheffield. The Cypress trees are of low amenity value, are non-native and wholly inappropriate in a conservation area in the town of Bakewell, in the heart of the Peak District National Park. Once felled, the trees will be replaced with a native species hedgerow which will be maintained to a heigh of circa 2 metres once established. This will be of greater ecological benefit.

DESCRIPTION	I wish to carry out some maintenance (pollarding) on two trees to the rear of my property: 1st tree, silver birch which has a canopy that now covers most of the far right of the rear garden; 2nd tree, I understand this to be a Whitebeam which also has a canopy that covers a large area across the rear part of the garden and like the silver birch, has not been maintained for some time. There is also a tree which I believe to be a Ginkgo to the front of the property. This tree is leaning towards next door and I fear may be blown over with any strong winds, this will risk part of next doors property so I wish to remove this.
