Barlow Hill  
Wincle  
Macclesfield  
SK11 0QE

DESCRIPTION      Trees are 2 sycamores which are diseased and hollow. Proximity to house means that they represent danger to both life and property. Low level winds bring down significant size branches and we are now concerned that following a period of extensive drought the integrity of the trees will have been further damaged.  
The trees sit at the gable ends of our house, with tree 1 adjacent to a significant power cable routing supply to households and businesses further into the valley.  
Tree 2 is also adjacent to a stone barn which whilst in a state of current disrepair our mid / long term plan is to replace this structure with the relevant planning permissions.

PARISH      Wincle
